

## Survey to analyze the effectivity of the Corona test offer for in-class events and exams

This survey accompanies our voluntary Covid-19 test offer for all students at the Heidelberg University during in-class events or exams. It is aimed to analyze the effectivity of the testing and to identify criteria that influence participation.

The completion of this survey as well as the Corona test itself are carried out anonymously and on a voluntary basis. The survey is independent of the Corona test. We appreciate if people fill out this survey, even though they do not plan to participate in the Corona test.

*We thank everybody for their participation!*

**Instruction:** Please fill out the form with a ball-pen. In case you ticked the wrong box, please fill out the entire box and tick the correct one (as shown on the right).

- 1 Does this survey take place during an exam or in-class event (e.g. lab practical)?  
☐ exam ☐ in-class event
- 2 How long was your journey to this in-class event / exam?  
☐ < 5 km ☐ 5-10 km ☐ 10-20 km ☐ 20-50 km ☐ > 50km
